

PUBLIC NOTICE

The Butte County Association of Governments (BCAG) is required to prepare a Federal Transportation Improvement program (FTIP) every two years and a long-range Region Transportation Plan (RTP) every four years. The purpose of the FTIP is to identify all transportation-related projects that have federal transportation funding or require some type of federal approval. Prior to the update of these documents, BCAG is hosting a public workshop to solicit input. BCAG is also updating its Public Participation Plan (PPP) to update any legislative references or any other minor changes as necessary.
