for May 5, 2022**

**Item #3 – April 7, 2022 BCAG TAC Meeting Minutes**

No comments were received.

**Item #4 – 2021 Federal Transportation Improvement Program – Amendment #6**

Staff presented Amendment #6 to the 2021 FTIP that included a request from the Town of Paradise for an additional \$100,000 in CMAQ funds for their Oliver Curve project. In addition, other modifications included update to the following grouped listing of projects: HBP, HSIP and State Minor Program. Staff indicated that the amendment for these projects was primarily financial changes and that the project listing did not change.

The City of Chico also requested any available CMAQ funds for the Esplanade Corridor Safety and Accessibility Improvement Project. Staff indicated that the City's shortfall is approximately \$1.39 million. Staff recommended the City submit a new request for funding as part of the upcoming call-for-projects for a new round of CMAQ programming slated to begin in the Fall of 2022.

This item was presented for action. The TAC supported staff's recommendation to the BCAG Board that the Town of Paradise be awarded an additional \$100,000 in CMAQ funds for the re-scoping and cost increase for their Oliver Curve CMAQ project. The motion passed unanimously.

**Item #5 – Status of Obligations for 2021/22 Fiscal Year.**

BCAG is required to provide Caltrans Local Assistance a list of projects that, as of May 1, 2022 have not been obligated but are planning on receiving one before the end of the federal fiscal year. The purpose of the obligation plan is to provide Caltrans a confirmation of what projects to expect for Caltrans to manage staff resources and to report to HQ in an effort to know California's planned obligation. Staff also stated that projects may also be advanced to draw down obligational authority. BCAG can advance projects and over deliver for the region. Staff provided a list in the agenda of what projects were programmed in the FTIP for review. Staff encouraged those agencies in a position to advance to do so.

**Item #6 – Active Transportation Program – Cycle 6**

Staff discussed the Active Transportation Program (ATP) Cycle 6. A brief overview of the program objectives was discussed. Staff reminded the committee that the application due date was June 15, 2022. Staff highlighted that the program is expected to be approximately \$1.5 billion. With a program more than double from a normal programming year staff indicated that project funding cutoff scores will be lower. Historically, projects which received funding from the ATP had to score at least a 90. Staff expects scores to be in the 80s for Cycle 6.

Staff encouraged potential project sponsors to work with Butte County Public Health for non-infrastructure aspects of a potential project. Staff also requested that BCAG staff be made aware of potential projects that were being considered and encouraged new projects to be included in or consistent with BCAG's adopted Regional Transportation Plan/Sustainable Communities Strategy. The grant application and guidance references were hyperlinked as part of the agenda packet.

**Item #7 – North Valley Passenger Rail Strategic Plan**

Staff provided a power point presentation on the BCAG's North Valley Passenger Rail Strategic Plan. Staff indicated that all material is posted for on BCAG's webpage at: <http://www.bcag.org/Planning/North-Valley-Passenger-Rail-Strategic-Plan/index.html>

The purpose of the presentation was to address questions and provide the TAC a general overview of the project. Staff indicated that additional presentation would be made to the TAC as the project progresses. Staff indicated that specific questions could be addressed to Chris Devine at [CDevine@bcag.org](mailto:CDevine@bcag.org).

**Item #8 – Caltrans District 03 Updates**

Jim Day of Local Assistance provided updates on:

- FHWA/FADS Status
- CTC Calendar / Allocation/Time Extension Status
- DBE for FFY 21/22 Status
- ATP Reference link for new projects (Cycle 6)
- HSIP Call for Projects with link to references. Applications due 9/12/2022
- Project End Date Reports with link
- Inactive Project Status Report

### **Draft 2023 Federal Transportation Improvement Program**

**PREPARED BY:** Ivan Garcia, Programming Director

**ISSUE:** The draft 2023 Federal Transportation Improvement Program (Document) has been prepared and is available for review. The BCAG Board of Directors is scheduled to adopt the 2023 FTIP on September 22, 2022.

**DISCUSSION:** As the Metropolitan Planning Organization for Butte County, BCAG is required to prepare and update a FTIP document every two years. The purpose of the FTIP is to identify all transportation-related projects that require federal funding and approval by the Federal Highway Administration (FHWA) or the Federal Transit Administration (FTA). The FTIP also identifies all non-federal, regionally significant projects for information and air quality emissions modeling purposes. The FTIP indicates the area's short-term plan for use of federal transportation dollars and other resources for the maintenance, operation, and improvement of the transportation system and the achievement of federal air quality standards over the next four federal fiscal years.

**The 2023 FTIP identifies approximately \$195.7 million in funding for 21 projects over the next four federal fiscal years beginning October 1, 2022.** The attached Table 1–2023 FTIP Summary identifies the projects by agency, fiscal year, and fund source.

The 2023 FTIP was developed in consultation with required state and federal agencies, and BCAG's transportation advisory committee. Development of the FTIP has been posted at BCAG's web page, noticed in the local newspapers indicating its availability and scheduled adoption for the September 22, 2022 Board meeting. Once adopted, the BCAG Board may amend the FTIP at any time.

In addition, staff will be distributing the Draft Air Quality Conformity Determination to the "Interagency Consultation Review" (ICR) group which includes representatives from the Federal Highway Administration, Environmental Protection Agency, Caltrans, Butte County Air Quality Management District and the Air Resources Board to review BCAG's Air Quality Analysis and Determination projects and process.

**BCAG Transportation Advisory Committee – Item 4**  
**August 4, 2022**  
**Page 2**

The 2023 FTIP is consistent with the adoption of the 2020 Regional Transportation Plan/Sustainable Communities Strategy approved by the Board in December 2020. A complete FTIP Document has been posted at BCAG's webpage at: <http://www.bcag.org/Planning/FTIP/index.html>.

A public workshop is scheduled for Thursday, August 4, 2022 via zoom. Staff will present the final draft FTIP at the September 1, 2022 TAC meeting and highlight any comments received.

### **TRANSPORTATION DEVELOPMENT ACT CLAIMS – PERFORMANCE MEASURES**

**PREPARED BY:** Ivan Garcia, Programming Director

**ISSUE:** During the 2021/22 fiscal year, staff has been updating BCAG's Transportation Development Act (TDA) claim workbook. New for the 22/23 fiscal year is the inclusion of performance measures associated with local projects submitted in the TDA Claim packet.

**DISCUSSION:** As the administrator for TDA funds in Butte County, BCAG is responsible for processing TDA claims for Local Transportation Funds (LTF) and State Transit Assistance (STA) Funds. New for the 22/23 claim process, staff is requesting additional information pertaining to performance measures. An additional tab is included in the claim packet (XL file) with the requested information as appropriate. Since the requested information applies to local transportation projects submitted, public works staff will likely provide the requested information. Staff will review the new information requested at the committee meeting.

Attached for reference is a printout of the Performance Measure Tab included in the claim. The reporting of this information will assist BCAG in preparing its required regional performance report for funds administered through BCAG.

**STAFF RECOMMENDATION:** This item is presented for information only.

Key Staff: Ivan Garcia, Programming Director  
Brian Lasagna, Regional Analyst

BCAG NOTE: The requested info will assist in BCAG reporting how discretionary funds are programmed. This is a BCAG reporting requirement. In order to accurately reflect how funds are utilized, please complete as best able to. Your information will be reviewed and changes may be made. Any changes will be returned to your agency.

### PROJECTS PROGRAMMED IN THE 2022/23 FISCAL YEAR

**PREPARED BY:** Ivan Garcia, Programming Director

**ISSUE:** Projects programmed in the State Transportation Improvement Program (STIP), or Federal Transportation Improvement Program (FTIP) are subject to timely use of funds provisions in which allocations are required to occur in the year they are programmed.

**DISCUSSION:** Staff has included the projects that are included in the draft 2023 FTIP which covers the next four federal fiscal years by fund type. In some cases, projects can be advanced if the sponsoring agency is ready to allocate funds.

Once a project is programmed in the FTIP, projects may request an allocation advancement with the funding identified or may request to use local funds up front and request program funds later in the year they are programmed.

**STAFF RECOMMENDATION:** This item is presented for the sponsoring agency's awareness.
