

2024 Regional Transportation Improvement Program

For Butte County

Fiscal Years 2024/2025 – 2028/2029

(July 1, 2024 through June 30, 2029)

Adopted: December 7, 2023

Prepared by:

Butte County Association of Governments

Subject: Butte County 2024 RTIP Submittal

Ms. Favila, Ms. Sudha Kodali:

Enclosed for programming consideration for the 2024 State Transportation Improvement Program (STIP) is the Butte County Association of Governments' (BCAG) 2024 Regional Transportation Improvement Program (RTIP). The BCAG Board of Directors adopted this RTIP at their December 7, 2023, Board meeting.

The attached 2024 RTIP reflects BCAG's commitment to program projects that are in alignment with:

- Climate Action Plan for Transportation Infrastructure (CAPTI)
- Federal Performance Measures including transit
- SB 375 for Greenhouse Gas Reductions

The proposed projects are included in BCAG's adopted Regional Transportation Plan/Sustainable Communities Strategy. The RTIP has been developed in an open and transparent process in accordance with BCAG's adopted Public Participation Process.

Projects are recommended to be funded with BCAG's Regional Improvement to further BCAG's commitment to further the goals by the State.

2024 RTIP Recommendations

TABLE 1

PROJECTS RECOMMENDED FOR THE 2024 RTIP / STIP	
Agency & Project	RIP Funding Recommendation
Chico – Eaton Rd / SR 99 Roundabout	\$6,300,000
Butte County – Palermo Safe Routes to Schools Project	\$2,625,000
BCAG - Planning, Programming & Monitoring	\$738,000
<u>Totals</u>	<u>\$9,663,000</u>

RIP Recommendations = **\$9,663,000**

2024 RTIP Fund Estimate = \$8,433,000

Over Programmed = \$1,230,000

BCAG’s 2024 RTIP demonstrates the region’s commitment to be in alignment with CAPTI, combat climate change and promote mode shift. The following table highlights the funding and percentages by project type proposed:

Project Type	Funding	Percent
Planning (PPM) – Planning, Programming & Monitoring	\$738	8%
Active Transportation – Safe Routes to Schools Project	\$2,625	27%
Highways (Safety and Operations) – SR 99 /Eaton Roundabout	\$6,300	65%
<u>Totals</u>	<u>\$9,633</u>	<u>100%</u>

This document has been posted on BCAG's website at: <http://www.bcag.org/Planning/RTIP/index.html> should additional copies be necessary. In addition, staff has emailed all RTIP electronic files including the electronic Project Programming Request (ePPR) data sheets to Caltrans and Commission staff. The ePPRs have been developed in CalSMART.

Should you have any questions, please do not hesitate to call me or Mr. Iván García, Programming Director for BCAG at 530-809-4603.

Sincerely,

Andy Newsum
Executive Director

A. Overview and Schedule

Section 1. Executive Summary

Insert executive summary narrative in the text field below.

BCAG’s 2024 RTIP continues a history of programming projects that are in alignment with local, regional and state priorities. Recognizing the region cannot build its way out of congestion, focus is directed to programming projects that better utilize the existing infrastructure in place and recognizing other needs such as equitable access and promoting infill development thru transportation. The project recommendations meet the requirements identified in the 2024 STIP Guidelines and are in alignment with the Climate Action Plan for Transportation Infrastructure (CAPTI) adopted by California State Transportation Agency (CalSTA) in July 2021. BCAG is submitting three projects for programming consideration and one PPM project. BCAG’s 2024 RTIP demonstrates the region’s commitment to combat climate change and promote mode shift. BCAG’s Fund Estimate is \$8.4 million and is requesting \$9.663 million, an over programming recommendation of \$1.23 million.

Section 3. Background of Regional Transportation Improvement Program (RTIP)

A. What is the Regional Transportation Improvement Program?

The Regional Transportation Improvement Program (RTIP) is a program of highway, local road, transit and active transportation projects that a region plans to fund with State and Federal revenue programmed by the California Transportation Commission in the State Transportation Improvement Program (STIP). The RTIP is developed biennially by the regions and is due to the Commission by December 15 of every odd numbered year. The program of projects in the RTIP is a subset of projects in the Regional Transportation Plan (RTP), a federally mandated master transportation plan which guides a region's transportation investments over a 20 to 25 year period. The RTP is based on all reasonably anticipated funding, including federal, state and local sources. Updated every 4 to 5 years, the RTP is developed through an extensive public participation process in the region and reflects the unique mobility, sustainability, and air quality needs of each region.

B. Regional Agency's Historical and Current Approach to developing the RTIP

BCAG's approach in developing the RTIP is to ensure the programming document and projects are in alignment with the adopted Regional Transportation Plan/Sustainable Communities Strategy and the Climate Action Plan for Transportation Infrastructure (CAPTI). Communication with the Board of Directors, advisory committees and public is critical to ensure regional support in the development of the RTIP. Alignment with the RTP/SCS and awareness of BCAG's air quality goals and federal performance goals continue to be a major factor in approaching development of the RTIP. In addition, transparency and access for public participation, Caltrans coordination and communication with Commission staff ensures the RTIP represents local, regional, and state interests.

Section 4. Completion of Prior RTIP Projects (Required per Section 78)

Provide narrative on projects completed between the adoption of the RTIP and the adoption of the previous RTIP in text field below as is required per Section 78 of the STIP Guidelines.

Since the 2022 RTIP/STIP was adopted, various project developmental components have been completed, however, none have been constructed. BCAG programmed 6 projects for a total of \$10.6 million. Most of these projects are slated for construction in the Spring of 2024. Included in the 2022 RTIP is also the purchase of two zero emission buses for Butte Regional Transit. The infrastructure to charge the zero emission buses was completed in the 23/24 fiscal year utilizing FTA funds. Receipt of the new buses is anticipated in 2024 calendar year.

Project Name and Location	Description	Summary of Improvements/Benefits
B-Line Rollout Program for B-Line Transit System	Purchasing two zero emission buses	Buses ordered. Delivery will be in 2025. Benefits will include lower regional emissions, GHGs.
Esplanade Bike/Ped Improvements in Chico	Construct 8' Multi-Use Path on both sides of roadway	Construction is scheduled to begin in 2024 and will take two years to complete. Benefits will include new Bike/Ped lanes, lower VMT, Safety Improvements.
SR 99 SHOPP Project in Gridley	Construct separated 8' bike/ped facility on east side of SR 99 in Gridley	Construction is scheduled to begin in 2024 and will take two years to complete. Benefits will include new Bike/Ped lanes, lower VMT, Safety Improvements.
2 nd Street Bike/Ped Improvements in Biggs	Complete safe routes to schools project near Biggs High School	Construction is scheduled for 2024 and will take one season to complete. Benefits will include new Bike/Ped lanes, lower VMT, Safety Improvements.
SR 32 at Meridian Rd Signalization Project	Construct new signal on SR 32 east of Chico at Meridian Road. (SHOPP Safety Project)	This project is under construction and will be completed in 2025. Benefits will be safety.

Section 5. RTIP Outreach and Participation

Insert dates below – Regional agencies can add rows to the schedule – Rows included below should remain for consistency.

A. RTIP Development and Approval Schedule

Action	Date
CTC adopts Fund Estimate and Guidelines	August 16-17, 2023
Caltrans identifies State Highway Needs	September 15, 2023
Caltrans submits draft ITIP	October 15, 2023
CTC ITIP Hearing, South	November 1, 2023
CTC ITIP Hearing, North	November 8, 2023
Regional Agency adopts 2024 RTIP	December 7, 2023
Regions submit RTIP to CTC	December 15, 2023
Caltrans submits ITIP to CTC	December 15, 2023
CTC STIP Hearing, North	January 25, 2024
CTC STIP Hearing, South	February 1, 2024
CTC publishes staff recommendations	March 1, 2024
CTC Adopts 2024 STIP	March 21-22, 2024

B. Community Engagement

BCAG followed its adopted Public Participation Process in developing the 2024 RTIP. Community engagement for the RTIP is tied to the extensive outreach process of BCAG’s RTP/SCS. BCAG has steadily increased its public outreach and community engagement efforts. BCAG continues to offer office and in person meetings, zoom participation, but has found better community engagement at community events. BCAG makes a good faith effort to attend various farmers market events, celebratory cultural events such as Black History month and Dia De Los Muertos, Salmon Fest, Pioneer Days and other events where they may be a larger public turnout. BCAG also holds in person public workshops and provides a zoom link for those who may be interested in learning and participating in the planning and programming process. This outreach effort is in addition to e-newsletters, advisory and board of director’s meetings which are all open to the public. In addition, the RTIP is developed in consultation with the BCAG Transportation Advisory Committee (TAC). The TAC includes representatives from each of the local cities, Butte County, AQMD, Caltrans, Chico Velo Cycling Club, Public Health, Mechoopda Indian Tribe of the Chico Rancheria and members of the public. Presentations were made to the TAC, Board, community events and organizations. The public was informed of the funding opportunity and the significance of tying projects to the RTP/SCS. In addition, new projects were encouraged to be consistent with the goals and guidance of the Climate Action Plan for Transportation Infrastructure (CAPTI) built from the Governors Executive Orders (EO) EO N-19-19 and N-79-20. In addition, applicants were encouraged to consider BCAG’s Federal Performance Measures for PM 1, 2, 3 & Transit to FHWA and to CARB under SB 375 for achieved GHG reductions. Comments received from the public were positive in nature with excitement that some local 2022 RTIP projects were going to be completed. Excitement was the general feedback for increased active transportation projects and for the future North Valley Rail project. The negative comments received were regarding how long projects took to get completed and the project costs.

C. Consultation with Caltrans District (Required per Section 20)

Caltrans District: 3

BCAG consulted with Caltrans District 03 on projects for the 2024 RTIP and ITIP. In doing so, the North Valley Rail project was nominated in this 2024 RTIP for the environmental component with 15% design. BCAG had proposed \$2.5 million in RIP and \$2.5 million in IIP funds. Caltrans District 3 supported this recommendation with BCAG that the project is in alignment with the objectives of CalSTA in working towards mode shift and connecting disadvantaged communities while bringing new infill, high density housing opportunities near future passenger rail stops. Caltrans District 3 is also a standing member on BCAG's Transportation Advisory Committee. As a result of financial constraints in the ITIP, the project is not included in this RTIP. BCAG will pursue other funding options such as the Aspiring Corridors Program and other State Rail Assistance Program opportunities at the appropriate time in consultation with CalSTA, Caltrans and other partnering agencies.

B. 2024 STIP Regional Funding Request

Section 6. 2024 STIP Regional Share and Request for Programming

A. 2024 Regional Fund Share Per 2024 STIP Fund Estimate

2024 STIP Fund Estimate for Butte County is \$8,433,000.

B. Summary of Requested Programming

Project Name and Location	Project Description	Requested RIP Amount
Eaton Road/State Route 99 Southbound Roundabout Project in Chico.	Convert the existing intersection of the SR 99 SB off and on ramps at Eat Road into one four-leg multi-lane roundabout	\$6,300,000
Palermo Safe Routes to Schools Project in Oroville.	Construct safe perimeter for kids to traverse around Palermo Schools with construction of 8-foot shared bike/ped path, drainage, paving, striping, and reflectors	\$2,625,000
Planning, Programming and Monitoring (PPM) in Butte County	Planning, Programming and Monitoring activities for BCAG	\$738,000
	Total	\$9,663,000

Section 7. Overview of Other Funding Included With Delivery of Regional Improvement Program (RIP) Projects

Both the City of Chico and Butte County projects have some level of local funds. Commission approval is required for programming and the allocation of funds. Caltrans has included the SR 99/Eaton Rd Roundabout project in the SHOPP. CTC would be required to approve the SHOPP allocation for this project. Local funds are included from the City of Chico for the Eaton Rd/SR99 Roundabout Project and federal CMAQ funds are included for Butte County’s Palermo Safe Routes to Schools Project.

Proposed 2024 RTIP	Total RTIP	Other Funding (\$1,000s)					Total Project Cost
		ITIP	STBG/CMAQ	Fund LOCAL	Fund SHOPP	Fund Source 3	
Chico – Eaton Rd/SR 99 Roundabout. The CON component is requested.	6,300			2,369	500		9,169
Butte County – Palermo Safe Routes to Schools Project. The R/W and CON components are requested	2,625		350				2,975
BCAG – Planning, Programming and Monitoring (PPM)	738						738
							-
							-
							-
Totals	9,663	-	350	2,369	500	-	12,882

Notes: Click here to enter text.

Section 8. Interregional Transportation Improvement Program (ITIP) Funding and Needs

ITIP Funding Requested

BCAG is not requesting ITIP funds at this time. For the Commission's awareness, BCAG is working on the North Valley Rail Project which is an interregional project. The planning documents and Project Study Report (PSR) have been completed. BCAG is in a position to initiate project development with the environmental component and has partnered with the San Joaquin Rail Commission and the San Joaquin Joint Powers Authority to bring the Altamont Corridor Express (ACE) and the San Joaquin trains north of Stockton via Midtown Sacramento and Natomas to Plumas Lake and the City of Marysville in Yuba County and onto the cities of Gridley and Chico in Butte County. This is an interregional project that spans approximately 70 miles between Chico and Sacramento. BCAG will be pursuing "Aspiring Corridors" and other State Rail Assistance Programs for funding. However, the ITIP may be pursued in a future STIP cycle.

The North Valley Rail Project is BCAG's top interregional and regional transportation priority. This project is prioritized in the Butte County long-range Regional Transportation Plan/Sustainable Communities Strategy and included in the State Rail Plan. This project furthers the numerous air quality, climate change, VMT reduction, and other goals of CAPTI. California's climate goals, namely reducing GHG and toxic pollutants, can only be achieved by reducing VMT, decarbonizing transport, and shifting travel from highways and air to the rail network. California's housing and economic development goals can only be achieved through broad increase in housing and jobs in transit-oriented communities, designed around fast, frequent, reliable transport services that take people where they want to go, when they want to go. No other public investment is as capable of efficiently connecting large numbers of people across communities and between regions as modern, zero-emission rail networks. The North Valley Rail Project will have connections to the state's High Speed Rail network allowing riders access to the rest of the state's rail systems. For the state highway system, rural two-lane highways prone to head on collisions continue to be a concern. These routes also serve as emergency evacuations or detour routes. BCAG looks forward to work with CalSTA, the CTC and Caltrans at the appropriate time.

Section 9. Projects Planned Within Multi-Modal Corridors

BCAG is not currently proposing projects in the 2024 STIP within multi-modal corridors. However, BCAG is working on the North Valley Rail project which will have a strong positive impact on the state's rail system and Northern California. The project will provide for a new mode of travel and open access for the north state residents to the rest of the rail system connections in Sacramento and Stockton. Future rail stops in Chico, Gridley, Marysville, Plumas Lake and Natomas may serve as a catalyst for high density residential and access to jobs by providing a new alternative transportation mode of travel. This project ties into the future development of the ACE and San Joaquin rail system tying into and arriving in Sacramento (Natomas) from the San Joaquin Rail Authority and San Joaquin Joint Powers Agency.

[Click here to enter text.](#)

Section 10. Highways to Boulevards Conversion Pilot Program

There are no state routes that might be a potential candidate for highways to boulevards conversions in the RTIP.

11. Complete Streets Consideration (per Section 26)

BCAG considers complete streets in its planning and programming recommendations. The SR 99 Eaton Rd Roundabout Project will provide a safer passage for bicycle and pedestrian travel across the Eaton Rd Interchange. This project will mirror the improvements already completed on the east side of the interchange. Full operational improvements for the overcrossing will be realized with the completion of this project and be safer for the bicycle, pedestrians and motorists. For the local Palermo Rd Safe Routes to Schools Project, the project completes a 15+ year effort to provide complete street treatments with new bike/ped facilities around and adjacent to nearby South Oroville schools in Butte County. This project is on and adjacent to local roads.

C. Relationship of RTIP to RTP/SCS/APS and Benefits of RTIP

Section 12. Regional Level Performance Evaluation (per Section 22A of the guidelines)

Provide an evaluation of system performance and how your RTIP furthers the goals of the region's RTP, and if applicable, your Sustainable Communities Strategy as required per Section 22A of the STIP Guidelines. Each region that is a Metropolitan Planning Organization (MPO) or within an MPO shall include an evaluation of overall (RTP level) performance using, as a baseline, the region's existing monitored data. To the extent relevant data and tools area available, the performance measures listed in Table B1 below may be reported.

Regions outside a MPO shall include any of the measures listed in Table B1 (below) that the region currently monitors. A region outside a MPO (or a small MPO) may request, and Caltrans shall provide, data on these measures relative to the state transportation system in that region.

As an alternative, a region outside a MPO (or a small MPO) may use the Performance Monitoring Indicators identified in the Rural Counties Task Force's Rural and Small Urban Transportation Planning study dated June 3, 2015. These include: Total Accident Cost, Total Transit Operating Cost per Revenue Mile, Total Distressed Lane Miles, and Land Use Efficiency (total developed land in acres per population).

The evaluation of overall performance shall include a qualitative or quantitative assessment of how effective the RTIP or the ITIP is in addressing or achieving the goals, objectives and standards which correspond to the relevant horizon years within the region's RTP or Caltrans ITSP that covers the 5-year STIP period. Caltrans' evaluation of the ITIP shall also address ITIP consistency with the RTPs.

In addition, each region with an adopted Sustainable Communities Strategy (SCS) or Alternate Planning Scenario (APS) shall include a discussion of how the RTIP relates to its SCS or APS. This will include a quantitative or qualitative assessment of how the RTIP will facilitate

implementation of the SCS or APS and also identify any challenges the region is facing in implementing its SCS or APS. In a region served by a multi-county transportation planning organization, the report shall address the portion of the SCS or APS relevant to that region. As part of this discussion, each region shall identify any proposed or current STIP projects that are exempt from SB 375.

BCAG's fund estimate for the 2024 STIP cycle is \$8.4 million in which 3 projects are proposed, one of which is PPM. With these limited funds, over \$12.8 million in total transportation investments is realized with local, regional and state funds. Each project is included in the RTP/SCS and furthers the goals of CAPTI.

A. Regional Level Performance Indicators and Measures (per Appendix B of the STIP Guidelines).

Use the following Table B1 to indicate quantitatively the overall regional level performance of your Regional Transportation Plan (RTP). For regions outside a MPO, a second Table B1(a) may be used as a replacement to Table B1. Table B1(a) is included on the next page.

Table B1			
Evaluation – Regional Level Performance Indicators and Measures			
Goal	Indicator/Measure	Current System Performance (Baseline)	Projected System Performance (indicate timeframe)
Congestion Reduction	Vehicle Miles Traveled (VMT) per capita.	21.4	20.8 (2040 – TDF)
	Percent of congested VMT (at or below 35 mph)	0	0
	Commute mode share (travel to work or school)		
Infrastructure Condition	Percent of distressed state highway lane-miles		
	Pavement Condition Index (local streets and roads)	60	Increase (CA SR 2018)
	Percent of highway bridges by deck area classified in Poor condition	34 % in need of replacement or rehabilitation	Decrease (CA SR 2018)
	Percent of transit assets that have surpassed the FTA useful life period	Rolling Stock – 8.62% Facilities – 0% Equipment – 0%	15% (2040) – decrease (B-Line) 1% (2040) 1% (2040)
System Reliability	Highway Buffer Index (the extra time cushion that most travelers add to their average travel time when planning trips to ensure on-time arrival)		
	Accessibility and on-time performance for rail and transit		
Safety	Fatalities and serious injuries per capita	10.3	Decrease (SWTRS/HPMS)
	Fatalities and serious injuries per VMT	1.96	Decrease (SWTRS/HPMS)
Economic Vitality	Percent of housing and jobs within 0.5 miles of transit stops with frequent transit service		
	Mean commute travel time (to work or school)		
	Farebox recovery ratio		
Environmental Sustainability	Change in acres of agricultural land	237,438 acres of important farmland avoided	233,729 acres of important farmland avoided (LU Model / GIS)
	CO ₂ emissions reduction per capita		

Table B1(a)			
Evaluation – Rural Specific Regional Level Performance Indicators and Measures			
Goal	Indicator/Measure	Current System Performance (Baseline)	Projected System Performance (indicate timeframe)
Congestion Reduction	Vehicle Miles Traveled per capita, area, by facility ownership, and/or local vs tourist		
	Peak Volume/Capacity Ratio or Thresholds (threshold volumes based on HCM 2010)		
	Commute mode share (travel to work or school)		
Transit	Total operating cost per revenue mile		
Infrastructure Condition	Distressed lane-miles, total and percent, by jurisdiction		
	Pavement Condition Index (local streets and roads)		
Safety	Total accident cost per capita and VMT		
Environmental Sustainability	Land Use Efficiency (total developed land in acres per population)		

If STIP Project Fact Sheet (STIP Guidelines Appendix A), and Table B1 or B1(a) are insufficient in indicating how progress towards attaining goals and objectives contained in each RTP is assessed and measured, include the following information:

- List your performance measures.
- Provide a quantitative and/or qualitative analysis (include baseline measurement and projected program or project impact).
- State the reason(s) why selected performance measure or measures are accurate and useful in measuring performance. Please be specific.
- Identify any and all deficiencies encountered in as much detail as possible

For qualitative explanations, state how progress towards attaining goals and objectives contained in each RTP is assessed and measured.

[Click here to enter text.](#)

Section 13. Regional and Statewide Benefits of RTIP

Provide qualitative narrative on the Regional and Statewide benefits of RTIP in text field below.

The Eaton Rd/SR 99 Roundabout project addresses safety and operations. In addition, the project improves the safety aspects for bicycle and pedestrian travel by improving how traffic moves through the interchange. Traffic flow will be improved, thereby reducing some

congestion and reducing accidents while maintaining a slow steady flow of travel. The Palermo Safe Routes to Schools project will provide safer non-motorized transportation for the area school children and public by providing a much safer route with better safety signage. The North Valley Rail Project will provide a new mode of transportation via passenger rail service. This project will reduce GHGs and VMT while providing a convenient mode of travel between Chico and Sacramento. The metrics provided in the table represent those from BCAG's RTP/SCS in which all projects are derived from. In addition, specific project benefits are included in the ePPRs and Project Study Reports.

D. Performance and Effectiveness of RTIP

Section 14. Evaluation of Cost Effectiveness of RTIP (Required per Section 22B)

Per Section 22B and Appendix B of the STIP Guidelines, regions shall, if appropriate and to the extent necessary data and tools are available, use the performance measures in Table B2 or B2a below to evaluate cost-effectiveness of projects proposed in the STIP on a regional level.

Table B2			
Evaluation – Cost-Effectiveness Indicators and Measures			
Goal	Indicator/Measure (per thousand dollar invested)	Current Level of Performance (Baseline)	Projected Performance Improvement (indicate timeframe)
Congestion Reduction	Reduce Vehicle Miles Traveled (VMT) per capita		
	Reduce Percent of congested VMT (at or below 35 mph)		
	Change in commute mode share (travel to work or school)		
Infrastructure Condition	Reduce percent of distressed state highway lane-miles		
	Improve Pavement Condition Index (local streets and roads)		
	Reduce percent of highway bridge deck area in Poor Condition		
	Reduce percent of transit assets that have surpassed the FTA useful life period		
System Reliability	Reduce Highway Buffer Index (the time cushion added to the average commute travel times to ensure on-time arrival).		
	Improve accessibility and on-time performance for rail and transit		
Safety	Reduce fatalities and serious injuries per capita		
	Reduce fatalities and serious injuries per VMT		
Economic Vitality	Increase percent of housing and jobs within 0.5 miles of transit stops with frequent transit service		
	Reduce mean commute travel time (to work or school)		
	Increase farebox recovery ratio		
Environmental Sustainability	Change in acres of agricultural land		
	CO ₂ emissions reduction per capita		

Table B2(a)			
Evaluation – Rural Specific Cost-Effectiveness Indicators and Measures			
Goal	Indicator/Measure	Current System Performance (Baseline)	Projected Performance (indicate timeframe)
Congestion Reduction	Change in VMT per capita, area, by facility ownership, and/or local vs tourist		
	Change in Peak Volume/Capacity Ratio or Thresholds (threshold volumes based on HCM 2010)		
	Change in Commute mode share (travel to work or school)		
Transit	Change in Total operating cost per revenue mile		
Infrastructure Condition	Change in Distressed lane-miles, total and percent, by jurisdiction		
	Change in Pavement Condition Index (local streets and roads)		
Safety	Change in Total accident cost per capita and VMT		
Environmental Sustainability	Change in Land Use Efficiency (total developed land in acres per population)		

Per Section 22C and Appendix B of the STIP Guidelines, regions may, if appropriate and to the extent necessary data and tools are available, use the benefits or performance improvements in Table B3 below to evaluate the proposed changes to the built environment.

Table B3			
Evaluation – Project Changes or Increased Capacity Benefits			
Project Type Or Mode	Changes to Built Environment	Indicator/Measure	Benefits or Performance Improvement at Project Completion
State Highway	New general purpose lane-miles		
	New HOV/HOT lane-miles		
	Lane-miles rehabilitated		
	New or upgrade bicycle lane/sidewalk miles	.1 new bike/ped facility as part of roundabout	
	Operational improvements	.1 – new 4 leg roundabout	Reduced congestion, improved GHG and safety improved
	New or reconstructed interchanges		
	New or reconstructed bridges		
Transit or Intercity Rail	Additional transit service miles		
	Additional transit vehicles		
	New rail track miles		
	Rail crossing improvements		
	Station improvements

	New or upgrade bicycle lane/sidewalk miles	0.75 miles	Reduced VMT, GHGs
	Operational improvements		
	New or reconstructed bridges		

Section 15. Project Specific Evaluation (Required per Section 22D)

Each RTIP shall include a project specific benefit evaluation for each new project proposed that estimates its benefits to the regional system from changes to the built environment, including, but limited to the items listed on page 9 of the STIP Guidelines. A project level evaluation shall be submitted for projects for which construction is proposed if:

- The total amount of existing and proposed STIP for right-of-way and/or construction of the project is \$15 million or greater, or
- The total project cost is \$50 million or greater.

The project level benefit evaluation shall include a Caltrans generated benefit/cost estimate, including life cycle costs for projects proposed in the ITIP. For the RTIP, the regions may choose between the Caltrans estimate and their own estimate (explain why the Caltrans estimate was not used). The project level benefit evaluation must explain how the project is consistent with Executive Order B-30-15 (Climate Change), including a description of any actions taken to protect the state’s most vulnerable populations. The evaluation shall be conducted by each region and

by Caltrans before the RTIPs and the ITIP are submitted to the Commission for incorporation into the STIP.

BCAG does not have any projects which fit the criteria for project level evaluation. The North Valley Rail Project proposed is for the environmental component only. BCAG has completed the necessary planning documents and project study report for the project in which specific project benefits have been developed.

E. Detailed Project Information

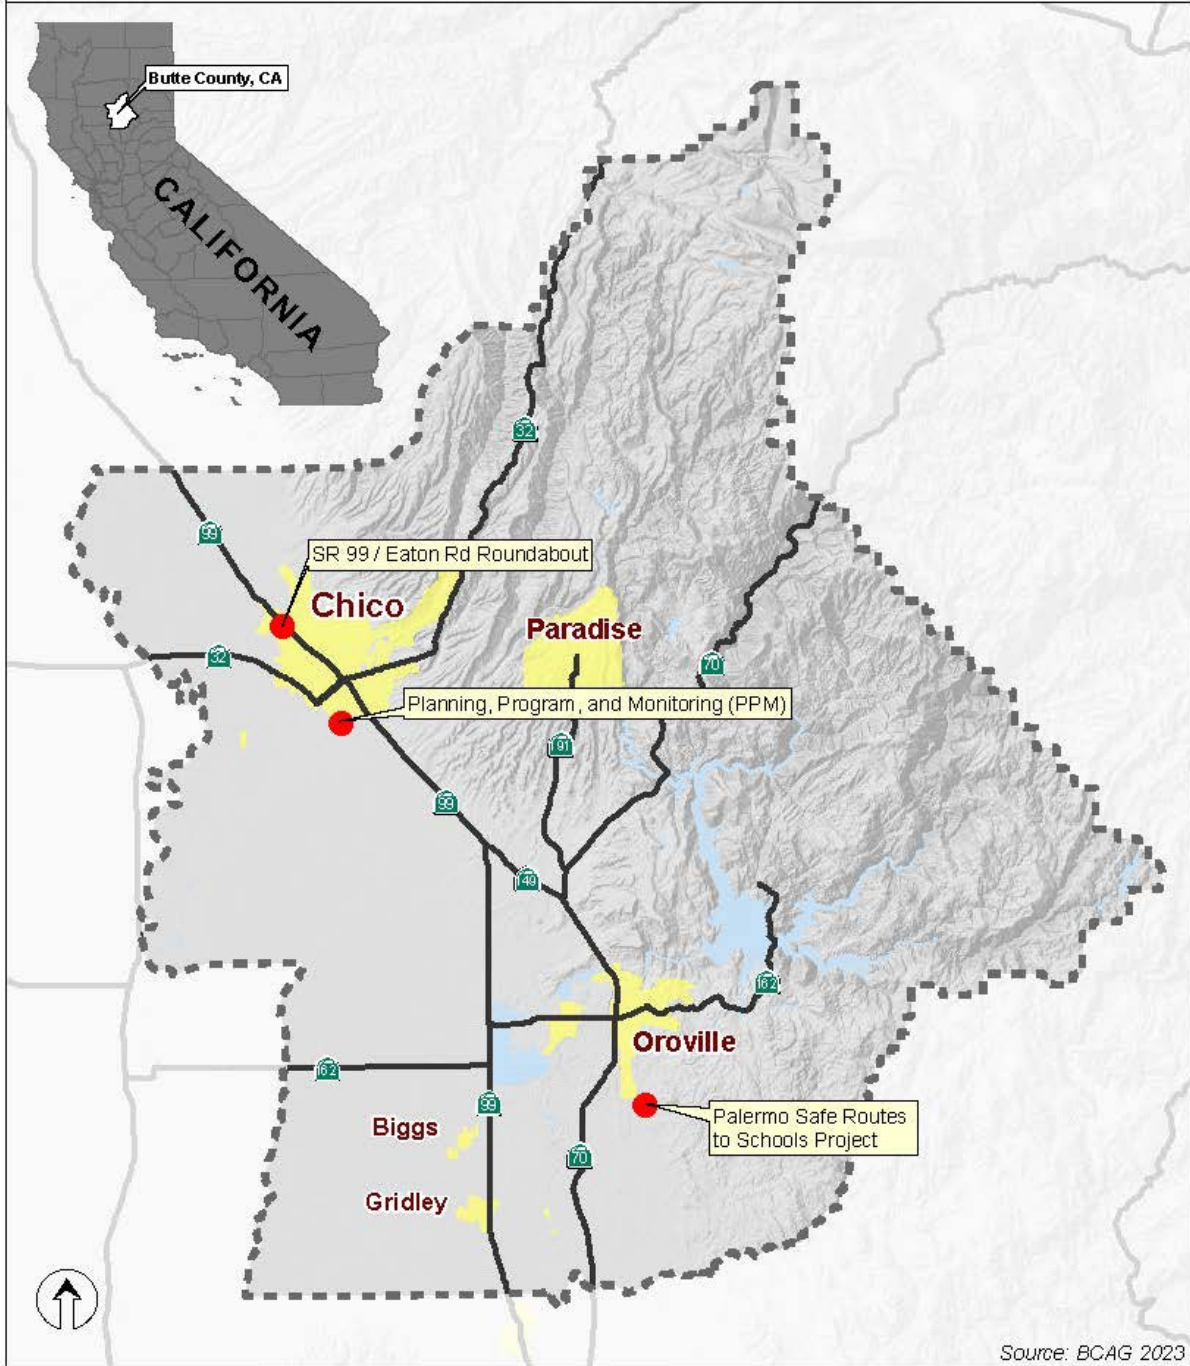

Section 16. Overview of Projects Programmed with RIP Funding

Provide summary of projects programmed with RIP funding including maps in the text field below as required per the STIP Guidelines.

Project Title

Eaton Road/State Route 99 Southbound Roundabout

Location (Project Limits), Description (Scope of Work)

In the City of Chico, convert the existing intersection of the State Route 99 southbound off- and on-ramps at Eaton Road into one four-leg, multi-lane roundabout.

Component	Implementing Agency
PA&ED	City of Chico
PS&E	City of Chico

Date 01/17/2024 14:08:56

Purpose and Need

The purpose of the project is to improve circulation at the intersection by reducing vehicle delay, lowering air quality emissions, minimizing collision frequency and severity, and removing barriers to active transportation. Currently, the intersection operates at an unacceptable level of service and experiences collisions due to improper turning, unsafe speed, and failure to yield.

Project Title

Palermo SRTS Project

Location (Project Limits), Description (Scope of Work)

Location:

The project is located within the community of Palermo in Butte County. The project limits are as follows; Lincoln Blvd from Palermo Rd to Baldwin Ave, Esperanza Ave from Lincoln Blvd to end. Baldwin Ave from Lincoln Blvd to Hewitt Ave, Hewitt Ave from Palermo Rd to Baldwin Ave, Bulldog Way from end to Hewitt Ave, Palermo Rd from Lincoln Blvd to Hewitt Ave.

Description:

Throughout the above listed project extents, construct new 8-foot shared bike/pedestrian path, storm drainage, paving, striping, signage and roadway reflectors. Essentially, the project will add a safe perimeter for kids to traverse around the Palermo School vicinity.

Purpose and Need

This project will instill much needed safe walking/biking paths for young bikers and students in the predominantly disadvantaged community of Palermo. The project is within the immediate vicinity of Lincoln Blvd., Palermo Rd., and Baldwin Ave., and is consistent with county's general plan and RTP/SCS goals, objectives and Policies. This project will continue to close gaps between previous HSIP, SRTS, SR2S, and ATP projects for this area. The widened shoulders will add safety features to these road segments as we have already incurred vehicle versus pedestrian collisions on Lower Wyandotte Rd. and Lincoln Blvd. resulting in fatalities for this area.

This project will significantly reduce the levels of automotive pollutants, as well provide safer, more convenient travel for both drivers, pedestrians, and bicyclists commuting to school, churches, shopping centers, and other destinations. In terms of emissions reduction, improvement to traffic flow, and health benefits, the construction of bike lanes will encourage more students and residents to utilize active modes of transportation. The project will provide the necessary separation of bike paths and roads to encourage reliable and safe means of active transportation for a younger/new generation of bikers.

Parents will be able to confidently allow their kids to navigate the streets on bikes, knowing that safe and well-designed paths are in place. This project seeks to bridge the active transportation gaps by connecting schools, homes, and local amenities through a network of thoughtfully designed bike paths. From an educational standpoint, these paths will offer more than just a mode of transportation. They pave the way for active and healthy lifestyles, fostering a culture of physical well-being from an early age. Children who bike or walk to school often arrive more alert and ready to learn, as physical activity has been proven to enhance cognitive function. Moreover, the path will create opportunities for interactive learning about road safety, environmental responsibility, and effective urban planning.

The bike paths will help foster a deeper sense of community connection among residents. By providing a safe and inviting environment, the paths have the potential to strengthen the social fabric empowering the community as a whole.

SECTION 1 - All Projects

Project Background

PPM - update ePPR for the new 2024 STIP Cycle with revenues identified in the Fund Estimate.

Programming Change Requested

Updating ePPR for new 24 STIP Cycle

Reason for Proposed Change

2024 STIP Cycle

If proposed change will delay one or more components, clearly explain 1) reason for the delay, 2) cost increase related to the delay, and 3) how cost increase will be funded

Other Significant Information

SECTION 2 - For SB1 Project Only

Project Amendment Request (Please follow the individual SB1 program guidelines for specific criteria)

Updating PPM ePPR for 2024 STIP cycle.

Approvals

I hereby certify that the above information is complete and accurate and all approvals have been obtained for the processing of this amendment request.

Appendix 2
Section 18. Board Resolution of 2024 RTIP & Documentation

BCAG Board approval: December 7, 2023

**BUTTE COUNTY ASSOCIATION OF GOVERNMENTS
RESOLUTION NO 2023/24-07**

**RESOLUTION OF THE BUTTE COUNTY ASSOCIATION OF GOVERNMENTS
APPROVING THE ADOPTION OF THE 2024 REGIONAL TRANSPORTATION
IMPROVEMENT PROGRAM (RTIP)**

WHEREAS, the Butte County Association of Governments is the designated Regional Transportation Planning Agency for Butte County in accordance with Government Code Section 29532; and California Governments Code Section 65080 requires Butte County Association of Governments as the Regional Transportation Planning Agency to prepare, adopt and submit a Regional Transportation Improvement Program (RTIP) to the California Transportation Commission, pursuant to sections 65080.5; and

WHEREAS, the 2024 Regional Transportation Improvement Program for Butte County identifies project recommendations to be funded utilizing Regional Improvement Program / State Transportation Improvement Program (STIP) funds approved for BCAG programming by the CTC and other state, federal fund or local funds;

WHEREAS, the 2024 RTIP identifies projects which at the time of adoption may require modifications to the Project Programming Request funding sheets by BCAG staff prior to the adoption of the STIP by the California Transportation Commission;

WHEREAS, the 2024 RTIP is consistent with the current approved Regional Transportation Plan and Sustainable Communities Strategies; and to the best of BCAG's knowledge, at the time of RTIP adoption, the projects identified for funding in the proposed 2024 RTIP are not anticipated to be impacted by implementation of the Safer Affordable Fuel Efficient Vehicles Rule Part One – One National Program which became effective on November 26, 2019;

WHEREAS, BCAG certifies the 2024 RTIP is consistent with the goals, objectives and policies included in the adopted 2020 RTP/SCS;

NOW THEREFORE BE IT RESOLVED that the Butte County Association of Governments has prepared the 2024 Regional Transportation Improvement Program for Butte County in accordance with California Government Code 65080 and Chapter 622 of the Statutes of 1997 (SB 45) and the adopted STIP Guidelines and authorizes its staff to make any necessary changes to the RTIP document including the Project Programming Request funding sheets to ensure its timely submittal and approval to Caltrans and or the California Transportation Commission for adoption into the STIP.

BCAG
Resolution 2023/24-07

PASSED AND ADOPTED by the Butte County Association of Governments on the 7th day of December 2023 by the following vote:

AYES: Durfee, Ritter, Teeter, Nichols, Reynolds, Calderon,
Pittman

NOES: None

ABSENT: Himmelshue, Connelly, Tryon

ABSTAIN: None

APPROVED:

BILL CONNELLY, CHAIR
BUTTE COUNTY ASSOCIATION OF GOVERNMENTS

ATTEST:

JON A. CLARK, EXECUTIVE DIRECTOR
BUTTE COUNTY ASSOCIATION OF GOVERNMENTS

Appendix 3 - Section 19

2024 RTIP For Butte County – Fact Sheet

Summary

BCAG’s 2024 RTIP continues a history of programming projects that are in alignment with local, regional and state priorities. Programming is focused on projects that better utilize the existing infrastructure in place and recognizing other needs such as equitable access and promoting infill development thru transportation. The project recommendations meet the requirements identified in the 2024 STIP Guidelines and are in alignment with the Climate Action Plan for Transportation Infrastructure (CAPTI) adopted by California State Transportation Agency (CalSTA) in July 2021. BCAG is submitting two projects for programming consideration and one PPM project. BCAG’s 2024 RTIP demonstrates the region’s commitment to combat climate change and promote mode shift. BCAG’s Fund Estimate is \$8.4 million and is requesting \$9.663 million, an over programming recommendation of \$1.23 million. Investment total over \$12.8 million with local, regional and state funds in the 2024 RTIP.

Significant Benefits

The 2024 RTIP completes a significant operational improvement project for Chico and a completes a major Active Transportation Project in South Oroville. The roundabout project located on State Route 99 and Eaton Rd in Chico will complete the operational improvements so that the benefits are realized. The City recently completed the mirroring roundabout on the east side of SR 99 just a couple of years ago. For south Oroville, the Safe Routes to Schools project will complete the remaining gaps along the disadvantaged communities to neighboring public schools to provide for a safe alternative mode of travel for the kids and community. Both projects will lower GHGs, VMT and improve air quality.

Regional and State Goal Alignment

Both projects recommended for programming are derived from the adopted RTP/SCS. In addition, the projects further the goals Caltrans, CAPTI and are in alignment with Caltrans ITSP goals and objectives. The projects proposed address safety and operations, bicycle and pedestrian improvements, and projects that reduce GHGs, congestion and improve air quality.

PROJECTS RECOMMENDED FOR THE 2024 RTIP / STIP	
Agency & Project	RIP Funding Recommendation
Chico – Eaton Rd / SR 99 Roundabout	\$6,300,000
Butte County – Palermo Safe Routes to Schools Project	\$2,625,000
BCAG - Planning, Programming & Monitoring	\$738,000
<u>Totals</u>	<u>\$9,663,000</u>
