STATUS FIELD:

Programmed (constrained) – all FTIP projects

Planned (constrained) – all projects which could reasonably be assumed funded, via BCAG or locally, by the year 2040

Project Development Only (constrained) – projects that are anticipated to begin early stages of development including project planning, design, preliminary engineering, environmental clearance, and ROW acquisition by 2040. These projects remain eligible to seek federal and state funding, but under the financial constraint requirements for forecasting revenues, the construction phase is not included in the 2020 RTP/SCS.

Unconstrained – all other projects outside of the constrained list
